IridioLabSM Evaluation Report

Customer	KEVIN SMITH
Gender	Male
Age (Years)	29
Scan Date	8/31/2010
Scan ID	CHEBUVIT01@VITLABS.COM_888DDDD
Provider Name	VITLABS
Provider Phone	None

We help you keep an eye on family health!SM

The entire team thanks you for using IridioLab. Early problem detection, subsequent treatment and monitoring are among the most important and well known factors in the improvement of overall quality of health care and reduction of health care costs.

The enclosed IridioLab Evaluation Report is based on statistical analysis of specific biometric characteristics found in the digital images of your eyes. IridioLab compares these biometric characteristics to statistically derived patterns and identifies deviations from statistical norms among the listed anatomical systems. The Evaluation Report is not intended to be a substitute for professional medical advice, diagnosis or treatment. Only a licensed physician can provide a true diagnosis, determine whether or not treatment is required and/or prescribe any medication for you. **IF YOU HAVE A MEDICAL EMERGENCY OR NEED IMMEDIATE MEDICAL ASSISTANCE, PLEASE CALL 911 OR CONSULT A LICENSED PHYSICIAN OR AN EMERGENCY MEDICAL FACILITY IMMEDIATELY.**

We hope that you use IridioLab regularly and wish you many healthy and happy years. Thank you for using IridioLab.

The VIT Labs team.
